### *Can the fountain be used outside?*

Because of the chocolate's sweet aroma, little flying creatures are very likely to be attracted to the chocolate fountain. This makes for an unappealing presentation. Maintaining a warm temperature of chocolate is also critical for continued smooth operation of the chocolate fountain.

### *What do I need to provide for the chocolate fountain?*

A level, sturdy table is required to allow the chocolate to flow properly. A 120 volt grounded electrical outlet within 10 ft. of the set-up location is required.

Your banquet facility should provide two table linens that will coordinate with your event.

Let us know your color scheme — We can now offer a variety of **colored chocolate** in our fountains to match your theme. We can skirt our fountains to coordinate with your colors or theme as well.

*Don't forget you'll need plenty of plates and napkins!*
